

SHER ULLAH

Software Engineering Student | Networking & Cybersecurity Enthusiast

ullahsher167@gmail.com | [LinkedIn](#) | Pakistan

PROFESSIONAL SUMMARY

Software Engineering student at City University of Science and Technology, Peshawar, with a CCNA certification and hands-on experience in networking, routing, switching, and TCP/IP. Currently building skills in Linux, cybersecurity fundamentals, and ethical hacking, with project experience in AI Full Stack Development, Python, and C++. Seeking to grow as a Cybersecurity/Security Engineer through hands-on technical roles.

SKILLS

Languages & Programming: Python • C++ • JavaScript • SQL

Systems & Scripting: Linux • Bash Scripting

Cybersecurity & Networking: Wireshark • Nmap • Kali Linux • VPN Configuration & Building • Network Engineering • TCP/IP • Cisco CCNA • Routing & Switching

Soft Skills: Communication • Problem Solving & Debugging • Teamwork • Collaboration

EXPERIENCE

Network Intern

City University of Science & Information Technology (CUSIT) | Jun 2026 – Sep 2026

- Configured and troubleshoot Cisco switches/routers for campus network infrastructure, working with VLANs and routing protocols
- Assisted in network installation and cabling for [X department/lab], supporting IT infrastructure uptime

Front-end AI Engineer — Internship

FlyRank AI | Jun 2026 – Sep 2026 (Remote)

- Developing front-end features and UI components using React and TypeScript as part of an AI-focused product team
- Collaborating remotely with the engineering team to implement responsive, user-facing interfaces

PROJECTS

Home Network Security Lab | Personal Project

2026

- Set up a virtualized lab (VirtualBox/VMware) with Kali Linux and a vulnerable target VM to practice reconnaissance and vulnerability scanning
- Used Nmap and Wireshark to analyze network traffic and identify open ports/services
- Documented findings and remediation steps in a written report

Network Security Monitoring & Threat Detection Platform | NetMonitor

2026

- Developed a web-based platform for network monitoring and threat detection
- Integrated Nmap and Scapy for asset discovery and packet monitoring
- Implemented detection for port scans, host sweeps, and suspicious connections

CERTIFICATIONS

- [CCNA: Data Communication & Computer Networks \(Cisco Networking Academy\)](#) – 2026
- [Security Operations Center \(SOC\) – Coursera](#) – 2026
- [Google Cybersecurity Professional Certificate](#) – Jun–Sep 2026
- [IBM: Hands-on Introduction to Linux Commands and Shell Scripting](#) – June 2026

EDUCATION

Bachelor of Science in Software Engineering | City University of Science and Technology

September 2024 – Present • Peshawar, Pakistan

- Currently enrolled, EQF Level 6

Faculty of Science (Intermediate / FSc) | FBISE

May 2022 – August 2024 • Peshawar, Pakistan

- EQF Level 4

LANGUAGES

- **English** (B2 Independent User: Listening, Reading, Speaking, Writing)
